

Crygma is a UK based company, specializing in the cyber defense of top classified data both in transit and at rest.

We offer sophisticated Anti Cyber Espionage Data Systems based on Tailored Encryption Solutions and Advanced Encryption Integration.

As Data Cyber Defense Consultants we provide Counter Intelligence Cipher Systems both to the private and the public sectors.

Wherever Absolute Secrecy over top classified communications, sensitive data storage and confidential file transfers, are needed, we offer the most sophisticated encryption technologies and advanced know-how in the field. In scenarios where the stakes are elevated, the Crygma Encryption Technology is Impenetrable and can't be deciphered.

Sincerely,

*Motty Weissbrot*
